THE WEATHER.

CYCLONE ON TRAVANCORE COAST.

(ASSOCIATED PRESS.)

MADRAS, Dec. 7.

A Trivandrum message says that two schooners caught in the recent cyclone came ashore, one at Thengapatanam and the other at Valaithura and were taken under police and Excise custody respectively. The schooner near Thengapatanam containing tobacco was smashed to piece while the other was partially damaged, but the crew of the vessal at Thengapatanam consisting of ten were safe. The cargo was mostly damaged. The schooner at Valaithura lost its crew and four dead bodies resembling those of Mahomedens were found between Kovilam and Poonthurai on the shore. It is rumoured that one life boat with five men landed near Colachel.

One schooner with tobacco in Quilon port disappeared on the morning of the day of the cyclone but reappeared after two days. The rice in Valaithurai schooner was sooked in water which was pumped out and the rice is now being landed.

WEST-END CINEMA

A Splendid Oscar Wilde Society Masterpiece
TO-NIGHT——THIS WEEK
LORD ARTHUR SAVILLE'S CRIME.
(6 Reels)
A Unique piece of whimsical humour, showing up the absurdity of superstition.
A PICTURE YOU WILL POSITIVELY LIKE.
The whole play is exceptionally well cast and told with the best possible effects, the most being made of Saville's comic failures at committing murder.
All the settings are excellent and the situations well posed. Especially good are the shots of London Streets, and a moonlight effect of the Houses of Parliament.
Cecil Mannering plays with the conviction and a full sense of believing in his Comedy Part.
LORD ARTHUR SAVILLE'S CRIME.
He was young, full of hopes, rich, handsome—born with the golden spoon in his mouth, and on the eve of matrimony. Yet his bliss was marred by a bogus palmist. How he escaped absolute disaster will be for you to see and criticise.

THEATRE AND CINEMA

EXCELSIOR THEATRE:—Two great films are causing a stir in the Bombay Cinema world. One of them "Way Down East" is now being exhibited at the Excelsior Theatre and the other "Little Lord Fauntleroy" is due to be exhibited at the same theatre on Monday night and the few nights following until the return of the Courtneidge-Holloway Company.

"Way Down East" has been shown to crowded houses during the past week and is being repeated to-night and to-morrow. From a spectacular point of view it is a film which takes some beating. In the story there may be a little sentimental gush but in the production there is nothing to be criticised and the scenes on the ice-bound river are wonderfully realistic.

Monday is the opening night of "Little Lord Fauntleroy" the big star film featuring Mary Pickford. It is a story which will appeal to all lovers of children. Miss Pickford takes the part of Lord Fauntleroy and handles and old and precious subject with great charm and delicacy. As the misunderstood daughter-in-law and also as the small nobleman she is simply lovable. The settings are remarkably rich and effective, particularly the substantial interior of the baronial castle and the beautiful scenes of the park, and Mary looks like a fragile piece of bric-a-brac amid them. It is a ten-part film with the famous actress to the fore throughout and it is certain to prove a big cinema draw.

EMPIRE THEATRE:—We have exceptionally good news this week for patrons of the Empire Theatre. A large contract has just been closed between the madan syndicate and that famous American combine The Lasky Film Corporation, which secures for the Madan Theatres the right to produce in India many of the biggest films of the year. The first of these films has just reached India and is being exhibited at the Empire during the present week commencing to-night. Entitled "The Gilded Lily" it features the irredescent and captivating Mae Murray in a role which suits her to perfection. The scene is laid in the city and Miss Murray enacts the part of a beatutiful woman, who getting all she can from her many admirers, gives nothing in return. She eventually tires of her butterfly existance and there comes the great desire for marriage and a quiet comfortable life in a cosy home far away from the glare and glamour of night life. She loses her heart to a country lad whose eyes are dazzled by the gay and sensuous life of the city, and here the story takes quite and unexpected turn, for the girl finds the happiness for which her heart yearns in a totally different direction.

EMPRESS THEATRE:—The great attraction this week at the Empress Theatre is the revival of that fine spectacular film "The Last Days of Pompeii." Presenting to the onlooker the glories of Ancient Italy in the height of her power, it tells the pathetic story of the love of a blind girl for one of noble blood, a love which was not returned and led to disaster. The two principle spectacled to disaster. The two principle spectahungry lions are fighting for their prey, and the eruption of Vesuvius which brings death and desolation to the city. The extensive and elaborate settings give one some idea of the enormous expenes incurred over the production of this picture which should attract all those who have not already seen it.

COLISEUM THEATRE:—In connection with the Red Cross Fete the Bombay Symphony Orchestra will give a special concert at the Coliseum Theatre on the Cooperage to-morrow night at 9-30 p.m. Mr. Edward Behr, the director, has arranged an excellent programme which will appeal to all lovers of really good music. Entrance to the fete ground from Queen's Road will be free for the concert, and seats may be booked at Messrs. Rose & Co. The Orchestra has already given us some splendid concerts this season which merit the continued and enthusiastic support of the musical world of Bombay.

GLOBE CINEMA.—The Exposition of St. Francis Xavier at Goa is the special religious ttraction at this thouse. The production is made by the Kohinoor Film Company and is the only film that will be able to show the beginning of the Exposition, which was held on the third of December, showing the gathering of Bishops, Cardinals and Priests from all parts of the world. The Governor-General of Goa with all his officers was also present. The procession started from the Church of Se to the Church of Bom Jesus, where the body of the Saint is resting. The picture shows the Exposition Ceremony, the Castle of St. Xavier in Spain where the Saint was born, the Tomb, Convent and other romantic scenes of the city of Panjim and its churches are also included.

MAJESTIC CINEMA.—This week "Majestic" is showing another national production, a picture-play adapted from the famous work of Mahakavi Bana Bhatta Kadambari. The story is very interesting, and the producers have handled the subject with success. Poondlika falls in love with Mahaswetta and in his love-sick state is cursed by The Moon to die before seeing his beloved. Poondlika curses Chandra to suffer separation from his beloved, and each is born again to die at the moment of meeting their beloved. Kadambari, the friend of Mahaswetta, takes a vow not to marry till Mahaswetta meets her lover and all are brought together by the efforts of Kapinjala Poondlik's friend. The story is not only interesting and well-produced, but sets a brilliant example of true love and friendship.

COMPANY MEETINGS.

TOOLSIDAS TEJPAL MILLS, LTD.

The Third Ordinary General Meeting of the above Company was held on Friday afternoon, at the Registered Office of the Company, 72, Apollo Street, Fort, Mr. Tricumdass Dwarkadas presiding. The following report of the Directors was approved and adopted:—

The Directors are glad to report that during the year under review, the Agents worked strenuously to reconstruct and replace the Buildings and Machinery destroyed by fire in March 1921 as mentioned in our last Report. Extensive repairs were taken in hand soon after the settlement of our claims against the Insurance Companies concerned, and were completed by September 1921, and full working order was restored by the end of the year 1921. That this was done most economically is shown by the reduction in our Capital Expenditure Account. The Profit and Loss Account for the period under report shows a net profit of Rs. 31,897-13-7 which can be considered hopeful in view of the fact that the Mill was in full working order for the three months only. Deducting this sum from last Year's loss Rs. 55 419-6-1, we have still to make good Rs. 23,521-8-6. The Mill property, both moveable and immoveable, have been insured collectively for a sum of Rs. 14,92,000 and profit for a sum of Rs. 3,00,000.

THE SINEWS OF WAR.

In the unfortunate controversy regarding the Councils that now divides Congressmen, one point of supreme importance is apt to be forgotten. And it is the all-important question of the sinews of war. Mr. C. R. Das, describing the achievements of the Non-co-operation movement during the last year and a half, said in the course of the statement that he issued at Amraoti, that they were a marvel in history. How was the marvel brought about? It was, of course, mainly due to the personality and work of Mahatma Gandhi, who infused among the people a rare spirit of willing and devoted service and sacrifice. But the instrument with which the Mahatma performed his miracle was the Congress organisation, which was never more powerful in its history than it was in his hands; and it became so powerful because it was broad-based on the most generous sympathy and unstinted support of the people; because, in short, it was the most democratic organisation ever brought into being in history.

Now whatever decision is taken at Gaya—and it will be a momentous decision—it will have to be carried out faithfully, cheerfully and vigorously by all Congressmen irrespective of their differences. As the Civil Disobedience Enquiry Committee wrote in its Report: "Individual views on other matters of principle or practice may vary from time to time but loyalty to the Congress must remain the first and last unalterable article of faith with every true Congressman. We have stood many trials but greater trials still await us. We need all the strength and courage that the country can muster up. The only reliable and unfailing source of strength lies in the constructive work planned out at Bardoli. Our first and foremost duty is to push on with that work and protect it at all cost against attacks both from within and without." The decision of the Congress—and whatever it may be it will embody the constructive programme—cannot be carried out with clockwork regularity and with such speed as to secure the end the nation has in view in the shortest possible time if the Congress organisation has not sufficient men and munition for the purpose. So far as money is concerned, we understand that the only Provincial Congress Committees which have substantial balances at their disposal are those of Bombay City and Gujarat. This is hardly a matter for satisfaction after the magnificent effort of the people which enabled the Mahatma to endow the Congress organisation with the initial capital of a crore of rupees in the shape of the Tilak Swaraj Fund. In regard to membership of the Congress the progress, after the Mahatma was removed from our midst, has been no less unsatisfactory.

If the Congress organisation is to inspire the maximum efforts on the part of the people and to secure the maximum results, Congressmen all over the country must devote their energies to the enrollment of members and, above all, to the collection of money for the Tilak Swaraj Fund. Just as the increased use of Khaddar by the people will be an indication that they are determined to drive out poverty, to become self-reliant and to achieve the economic independence of their country, so will the enrollment of one crore more members and the collection of an additional crore of rupees for the Tilak Swaraj Fund will be a tangible token of their determination to win Swaraj before the expiry of the term of imprisonment of their great leader. The country is on its trial. The next few months will show whether Indians of the present generation are worthy of the destiny of their country.

FALSE ECONOMICS.

As a rule we expect little else but generalisations of a pseudo-economic character in the columns of our Anglo-Indian contemporaries when they indulge in criticisms of schemes of national or even civic development. There are two or three pet shibboleths which they usually parade with seeming effectiveness by a more or less skillful use of the rule of permutation and combination. One of these is the rooted notion of the excellence of private enterprise in all industrial and commercial ventures. The instance of the new policy for Railway management will occur to any careful reader of contemporary Press. The other shibboleth is the belief that anything done by Government is unquestionably for the best in the best of all possible worlds. The inherent incompatibility of these two dogmas is seldom realised by the writers; but we were not prepared to see the "Times of India" indulging in the amazingly futile and fatuous sermon on the economics of urban rent, apropos of the question of the rent of the Development Department's chawls. If the hopelessly involved arguments of the article mean anything, they amount to this that the Government have a right to charge an economic rent. But what is the "economic rent" of urban tenements like those constructed by the Development Department? We wonder why the "Times of India" did not quote Carey and Ricardo and Henry George in one breath, while defining the rent as one that "pays the costs." In the earlier part of the article the writer most complacently pointed out that while to others the cost per room of the size established by the Development chawls was between Rs. 1,500 to Rs. 2,000 the Development chawls had cost in the neighbourhood of Rs. 1,100; and there were hopes of the cost being reduced to Rs. 1,000. But if this is the cost that is to be made good by the "economic rent" our contemporary would have, it would amount to Rs. 65 to 70 per annum at 6½ per cent., the rate of interest given for the Bombay Development Loan. The rent in that case could not—should not according to our contemporary's argument—exceed Rs. 6 per mensem per room. The critics, however, have opposed the policy of charging Rs. 13 or 14 per room, which, according to the above argument, is over a *hundred per cent in excess* of the economic rent.

But the "Times of India" has bungled even more than the above absurdity would imply. The "costs" which the chawl rent is required by it to make good, are not the fair costs of the tenement—which, by the way, could be reduced much below the assumed standard of Rs. 1,000 per room—but the costs of the entire scheme of Bombay Development. "The community", which according to the "Times of India", is the Government,—who have disregarded its protests against certain extravagant and uneconomic items of the development programme,—"which is responsible for the service of the loans through which the chawls were built, will", we are told, "be equally responsible for any failure of the chawls to secure rents which pay the charges upon them." As we have already shown, if the chawl rent were adjusted to pay the actual "costs" of the chawl only, there need be no fear of the tenements failing to obtain the economic rent. But it is because the Department seeks, by charging a cent per cent. higher rent, to recover a portion at least of the costs on the rest of the Bombay Development projects, that the "Times of India" has been obliged to take up cudgels on its behalf. The journal argues: "The charging of a rent for these chawls, which is not an economic rent in the respect that it pays the costs, is a tax on the community. . . . for the benefit of the employers of Labour in Bombay." We hold no brief on behalf of the employers of Labour in Bombay, though we cannot help pointing out that the various Government departments and semi-Government bodies will have to be classed as employers of Labour. But we must repeat, lest the sophistries of the "Times of India" should confuse any dispassionate student of our civic problems, that the rent question in regard to these chawls is adjusted not on the strict economic basis of repaying the cost incurred; that the reduction suggested would not only more truly approximate to the actual economic rent, but would clearly expose the unsoundness of the development programme in various other directions, which exposure the Department is anxious to avoid at any cost; and that, finally, the reduction in rent would impose a tax upon the community for the service of the loans, not for the benefit, of the employers so much as with a view to obscure the real weakness of Development economics.

And that is just the crux of the question. The problem of housing in Bombay is not merely an economic question that can be settled by the simple rules of arithmetic. The "Times of India" has quoted and commended the following finding of the Industrial Disputes Committee: "Until an adequate supply of sanitary rooms, let at rents within the means of the ordinary wage-earner, is available every attempt really to improve the condition of the operative classes is pursuing a will-o'-the-wisp." If securing suitable housing for our working classes is a prime requisite of our civic life, the provision must be made on a most liberal consideration of the rent-paying capacity of the wage-earner. Slums are a danger not only to their immediate inhabitants, but to the whole community. To remove them, better housing may be, nay *must* be provided, even, if necessary, at a rent which may involve a tax on the rest of the community. For, it will be a tax not for the benefit of the employers so much as for the better sanitation of the city, and the greater health, freedom and happiness of the whole community. In face of the growing strength of the Labour organisation, we are unable to accept the reasoning of the "Times of India" that low-rented chawls would enable employers to drive down the wages below the economic level. But even if they could do so, steps must be adopted to enforce a minimum wage for the benefit of the worker, and we must not start with a maximum rent for the benefit of the Development Directorate. The two are radically opposed in their intention as well as in their consequences. And, lastly, even supposing that by low-rented chawls, employers stand to benefit unduly, would it not be a better measure to devise some kind of a special tax on the employers to make up the deficit in the rent return rather than to penalise the worker from the beginning by a rent initially higher than what used to be the standard charge for such tenements five or seven years ago?

Notes of the Day

Revelation.

The other day in the course of the discussion on the Greek executions it was suggested in the House of Commons that letters of British Ministers existed proving that the British Government gave encouragement to the campaign of the executed Ministers. The disclosure now made in the House of Lords proving the existence of such correspondence sheds instructive light on the Anglo-Greek compact which has worked havoc with the reputation of British statesmen during the past one or two years. Those who have been following closely the trend of Lloyd Georgian diplomacy immediately prior to the Greek debacle in Asia Minor have never doubted that the Greek command was being egged on by the British Cabinet to stay in Asia Minor as long as possible and hopes were being held out to it, which British Ministers must have known would not be endorsed by the country. To the world at large the interest of the discussion in the House of Lords does not lie in the point whether Lord Birkenhead, who was a member of the Lloyd Georgian Government, knew of the existence of Lord Curzon's letter or not, but in the official admission that the Foreign Minister did send a message to the Greek command urging it to stay on in Asia Minor. After such admission how can the bar of world opinion exculpate the British Foreign Minister and his colleagues from the charge of abetting the Greeks in their unjust war against Turkey?

Nationalist Municipal Party.

We published on Thursday a manifesto of the Bombay Nationalist Municipal Party, outlining the Party's policy and programme. There is nothing in the manifesto, so far as we can see, to which exception can be taken by any reasonable and progressively minded citizen. Only vested interests will be unable whole-heartedly to subscribe to the Party's programme, which is one of genuine public advancement, in contradistinction to the promotion of the interests of cliques of individuals or classes of citizens, which has been the policy of a considerable section of the Municipal Councillors in recent years. The advent of the Nationalist Municipal Party is a welcome sign of the awakened consciousness of the public of this city, which will no more tolerate the subordination of vital public interests to personal and selfish ends. Up to now the citizens of Bombay have been wont to exercise their choice of municipal candidates by personal predilections rather than by any definite knowledge of the worth and policy of each candidate. They generally voted blindly and if the candidate disappointed them after election, they ceased to take any interest in him. The candidate, too, finding that there was no organised body of electors to whom he could be said to be responsible and who would be able to curb him in his vagaries and call him to account, acted in quite an irresponsible manner, defying the electorate and disregarding public interests. But, henceforward, with the formation of the Nationalist Party, whose members are pledged to a definite programme, the electors will be able to take greater interest in the careers of their candidates and to make them truly amenable to the opinion of the electorate.

The Programme.

The several planks in the Party's programme, such as the municipalisation of public services, the immediate introduction of free and compulsory primary education, complete autonomy to the Corporation in the affairs of the city, total prohibition of liquor, and retrenchment, are such as will have the wholehearted support of the public. The Party has also pledged itself to work out the constructive programme of the Congress generally so far as is applicable to the civic administration of the city. We trust every member of the Party and every candidate put forward by the Party has subscribed to the Congress Creed. The Party has announced a preliminary list of candidates, most of whom are well-known citizens. The number of candidates put forward in some of the Wards, is no doubt meagre, but we hope the executive of the Party will be able to secure the required quota of members in each Ward, so that a decisive majority pledged to the nationalist programme may be returned to the new Corporation next year.

A Dodge That Failed.

In spite of the Finance Member's protestations regarding the harmless character of his amendment to the Bombay Entertainments Duty Bill, the majority of the non-official members of the Legislative Council refused to fall into the trap set for them. No sooner did Mr. Lawrence move the amendment than member after member rose to denounce the dodge as unworthy of Government and one honourable member, whose pro-official leanings are becoming more and more pronounced day by day, went so far as to say that if such attempts were made in that Council, it would not be a place "for straightforward people to sit in." Another member, a nominated one, roundly told the House that he did not accept the assurance of the Home Member that the power asked for would not be misused by Government. "There were many such instances of misuse of power," he stated. Other members too expressed similar distrust of Government. Only one non-official speaker, the redoubtable Mr. V. A. Dabholkar, could be found to support the Finance Member. The latter tried hard to convince the Council that he did not mean to get round its earlier decision to impose a 50 per cent. tax on admission to the race course and that all that he was genuinely concerned about was the fate of the cinema industry which would be hit hard by the taxation on the lower class seats. We do not remember that the Finance Member betrayed any signs of compunction in this regard on the previous day when the Council debated the question of taxing these seats. If he feared that harm would result to the owner of the cinema or the public by the taxation of the lower class seats why did he not take the Council into his confidence then? Regarding the negotiations for the sharing of the totalisator receipts, if the Government have any definite proposals to make at the end of the negotiations, let them do so, but to ask for a blank cheque in anticipation of events is preposterous and is calculated to induce suspicions regarding official *bona-fides*—especially since the official members have betrayed their partiality towards the Turf Club. For once the non-official members of the Council deserve to be congratulated on their sanity and courage in exposing the official dodge.

Hawkers.

The Bombay Government Gazette published on Thursday a notification by the Commissioner of Police under sub-section 2(d) of section 23 of Act IV of 1902 that until further notice all persons found hawking wares by the public utterance of cries on the following roads will be prosecuted:—The whole of Chowpatty Road from Railway level crossing to foot of Walkeshwar Road, Harvey Road, Alexandra Road, Laburnum Road, Vatchagandy Road, Owen Duan Road, Hughes Road, French Road and Babulnath Road. No explanation is offered, along with the notification, of the reasons which have prompted the Commissioner to issue this notification. Why are hawkers' cries banned in this particular section of the city? It cannot be that the action has been taken in the interest of the peace of mind of the residents of this small area, for residents of other localities too would, if they were consulted, like to be relieved of the distraction. It cannot also be pretended that the hawker nuisance has attained alarming proportions in this particular area, which, comparatively speaking, is a quiet area, as every one knows. What is the *raison d'etre* of the notification then? In whose interest has it been issued? Will the Police Commissioner enlighten the public?

The Contrast.

Mr. L. E. Haynes, director of the Sino British Trade Association, makes some observations in the course of a letter addressed to the "Manchester Guardian," which those who seek to promote better trade relations between Great Britain and India will do well to lay to heart. At present, says Mr. Haynes, vast numbers of young Chinese are educated in the United States, but very few in Great Britain. The result is that they grow up as admirers of American institutions, which they apply to their own country on their return:

The Americans are wise enough, Mr. Haynes continues, in educating them, to encourage young Chinese to enter American factories, engineering works, merchants' houses, etc. These young men become acquainted with American machinery, American export goods, etc. When they return to China and enter some practical occupation they, not unnaturally, wish to modernise the existing plant, etc., on the American model. They send to the United States for machines, for woollen and cotton cloth, for engineers, bank managers, etc., and thus business is rapidly being transferred from England to the United States, to our very great injury. If, on the other hand, these young men had been trained in English establishments, they would be familiar with those specifically English weights, measures, currency, and business methods, which at present bewilder them, and their orders would go to our industries and our merchants.

If English factories and commercial and engineering firms had not been keeping Indian youths at arms' length and compelling the latter to go to foreign countries to obtain the technical and commercial knowledge they are so much hankering after, the prejudice against English manufactures and commercial houses would not be so strong to-day in India as it is. The remedy lies in the hands of the British themselves.

THE PROBLEM OF THE STRAITS.

TURCO-AMERICAN UNDERSTANDING ESSENTIAL.

CHICHERIN WINS OVER ITALY.

MANOEUVRES OF BIG FINANCE.

AMERICA DOES NOT FALL IN WITH BRITAIN.

VATICAN'S "S. O. S." TO CHRISTENDOM.

(SPECIAL CABLE TO "THE CHRONICLE.")

BY FELIX VALYI.

LONDON, Dec. 7, 1 p.m.

The Paris paper "Echo National", founded by M. Clemenceau and directed by M. Andre Tardieu, one of the most ambitious members of the Clemenceau-Zaharoff group, makes strong efforts to gain French opinion against the Turks, denouncing them as Bolshevik and pan-German instruments. M. Tardieu insists on the military guardianship of the Straits by foreign garrisons. It is well to remember that M. Tardieu is known as a self-candidate to the French premierships and that the "Echo National" belongs to Sir Basil Zaharoff. Do not forget that M. Tardieu has been always a friend of big financiers and that the danger of his campaign consists in his American connections as all his articles are printed in America by the Consolidated Press Association, while Turkey is isolated from American opinion. M. Tardieu changes his friends like shirts and has actually little moral support in France.

FRENCH PARLIAMENT OPPOSED TO COERCION OF TURKEY.

The French Parliament is strongly opposed to military compulsion against Turkey, reserving its attention to the Central European situation. The only demand I heard in France from prominent economists concerning interference with Turkish sovereignty are some new guarantees instead of the condemned system of capitulations. Protection of French material interests by the Serruys scheme, is the main feature of France's objection to full Turkish economic independence. Monsieur Serruys, the most distinguished French expert of Government, declared that his project can possibly be conciliated with Turkey's economic programme.

HOW TO RECONCILE TURKISH AND WESTERN ECONOMIC INTERESTS.

I have already given some details of my suggestions on the matter. If Turkey herself would offer by free initiative and as a sovereign state declaring her willingness to choose and engage European or American jurists and other technicians entering into Turkish service without any official connection with Foreign Governments and if absolute liberty of choice by Turks between their friends for that purpose is safeguarded, the foreign credit of Turkey would permit immediate help for revival of Asia Minor on a new economic basis. Such independent schemes of Turkish reforms existed before the war. It will be remembered that Turkey offered in 1913 such important technical posts to British experts. Unfortunately Grey turned down the Turkish offer. It should be remembered also that an American expert, Mr. Morgan Shuster, rendered valuable services to Persia until he was expelled by Tsarist intrigues. Independent and highly minded men of science with sufficient power to work seriously in Asia Minor and belonging to the Turkish Civil Service without foreign interference would be the best moral guarantees both for Turkey and Western economic interests. Such work cannot be accomplished by diplomatists or intriguers, but exclusively by men of science devoted to the greatness of the task.

ITALY GAINED OVER BY CHICHERIN.

The "Journal des Debats" states that M. Chicherin has succeeded in gaining to some of his views Marquis Garroni, head of the Italian delegation at Lausanne. The Vatican sent a memorandum to the Lausanne Conference asking protection for Eastern Christians and declaring that the property and life of Europeans including Christian congregations are in peril. It is no use denying that the Christian population is flying from Asia Minor. The essential question, however, is whether the responsibility for that racial and religious hatred in the East is to be imputed to the Orthodox Church or to Islam. His Holiness the present Pope Pius XI is a very great historian. As an ex-librarian of the Vatican he probably knows the fundamental historical truths about Islamic and Turkish tolerance, truths which are reported in very many important documents of the Vatican library. One of the present heads of Catholicism Pope Pius II, the great humanist, before organising his crusade against Turks thought of an exceedingly simple way of solving the Ottoman problem. In a personal letter he invited Mohammed the Conquerdr to accept Christianity together with all his people and offered him under this condition to recognise him as the Protector of Europe in 1453. May I ask if it seems still impossible in 1922 for Turkey to become an equal member of the European family of nations by remaining faithful to Islam. In this problem lie the moral roots of the dramatic struggle between European diplomacy and Turkey.

ANALOGY OF PANAMA.

To return to the present the "New York Herald's" Washington special cable points out that the American standpoint does not completely support Lord Curzon's contention for an absolutely unrestricted waterway for warships that would permit control of the Straits by Britain and the maintenance of a permanent British fleet in the Black Sea, this fleet using a Roumanian port as its base. The "Herald" remembers the Hay-Pauncefote treaty respecting the Panama canal, which although assuring its neutrality has been fortified by America. Britain never resisted seriously this militarising policy. In some American quarters the Panama canal is pointed to as showing that a fortified waterway serving international commerce gives an even greater sense of security than if it were left undefended. It is asserted, adds the "Herald", that in Washington diplomatic quarters, the fortification of the Dardanelles may be considered compatible with the world's commercial interests, if those are protected by special clauses permitting the Straits to be closed only after warning and giving guarantees of non-interference with the Straits on behalf of the treaty signatories themselves. As the vital point on this tremendous issue which can mean peace or war for Europe in a few days depends upon America as representing a naval power equal to Britain and also the greatest reservoir of gold, Turkey should absolutely try to get an agreement with the U. S. A. Turkey is neither for the Russian nor for the British plan, but suggests that America should elaborate some compromise which will avert a rupture.

PREGNANT WITH BIG CONSEQUENCES

The decisive role, I anticipated for U. S. A. in the combat between East and the West is clearly shown by the "New York Herald" and the "Chicago Tribune." The three hour conference between Ismet Pasha and the U. S. Ambassador Mr. Child on Tuesday may be of a big consequences for Turkey. For the makings of the Islamic policy of U. S. A. on a new plan which I suggested many months ago and repeated in my memorandum to Youssouf Kemal in March 1922 and again in that addressed to Ismet Pasha the 18th November on the eve of the Lausanne conference are visible now. It will depend upon the constructive policy both of Turkish and American statesmanship to save the peace. The moral and international failure of the Lloyd Georgian system gives to America the greatest opportunity she ever had to lead the world in its new destinies.

GEORGIAN BLUNDERS LEAD TO LOSS OF BRITAIN'S LEADERSHIP.

Three years of Lloyd Georgian blunders since the Armistice conducted to the loss of effective leadership by Britain. This is the eleventh hour to try to regain her prestige in Asia by new methods, new ideas and new moral compulsions towards Islam as the only possible spiritual pillar of the Empire in Asia. A great man is wanted for the Anglo-Saxon race. Unfortunately I see no trace of such a man in this supreme hour of European destinies. I fear that Beaconsfield has been the last great representative of British statesmanship. Some Gladstonian scribe called him once in the "Observer" a Spanish Jew and repudiated solemnly last year Disraeli's fascinating vision of Anglo-Islamic friendship as contrary to the genius of the Anglo-Saxon race. Many Britons admit to-day that the Gladstonian tradition was wrong. The famous proverb saying that "Allah hits with stupidity those whom he intends to lose" should at this juncture be brought home to Turks and Britons, to Moslems and Christians and also to self-candidates for oil and naval suppremacy.

AMERICA NOT MERELY "RACE THAT BUYS AND SELLS."

America became a great nation from a mixture of races whom Lord Byron had called "a race that buys and sells." In spite of Byron's cynical remark on the white race, it seems to me, that the time has arrived to make of America more than the biggest business power of the world.

AMERICA'S MORAL LEADERSHIP OF THE WEST.

In realising that a new idea also may be the lever of a good business, the United States of America can get for ever the friendship of Islam and the moral leadership of an exhausted Western civilisation, fallen into impassioned stupidity from the spirtual point of view.

THE GREEK DEBACLE.

BRITAIN'S RESPONSIBILITY.

LONDON, Dec. 7.

In the course of a long debate in the House of Lords to-day, Viscount Birkenhead moved for papers being laid on the table following his denial that he had seen a copy of the letter from M. Gounaris dated February this year to Marquess Curzon. The letter was recently published in a London newspaper and declared that Greece was unable to hold out in Asia Minor unless Britain immediately furnished her with money and munitions.

Lord Birkenhead read Lord Curzon's reply, which the former summarised as having said "stay, at least for the present."

The Marquess of Salisbury, on behalf of Lord Curzon, admitted the accuracy of the published letter. He accused Lord Birkenhead of seeking to evade responsibility for actions of the Government to which he used to belong and suggested that both documents had been circulated in the former Cabinet.

Lord Birkenhead, however, denied this in strong terms.—(Reuter.)

WORLD'S GREAT MEN.

MAHATMA'S PERSONALITY

JAPANESE SYMPATHY FOR TURKEY.

(Special Cable to the "Chronicle.")

TOKIO, Dec. 7.

Turkish problems are provoking unusually bright editorials in the Japanese Newspapers. The "Osaka Mainischi" remarks that, although poles apart from one another in their characters, Gandhi, Kemal, and Mussolini belong to the same category of men who have suddenly risen to fame and power in post-war history of the modern world. Mahatma Gandhi, the leader of the Indian National Independence Movement, though now in prison on a charge of sedition, carries with him the whole Indian naion. Mustafa Kemal Pasha is the Turkish Napoleon, holding the destiny of his country in the grip of his fingers. Signor Mussolini, the leader of the Fascisti party, is wielding such power that an indefinite adjournment of the Parliament practically made him the Dictator of Italy. By far the most significant personality among these three national heroes, is Mahatma Gandhi, because he is not only the political leader but a spiritual apostle, whose doctrine of non-resistance and non-violence the people of India have accepted and are following like sheep following the shepherd, while the other heroes have obtained their power through force and military powers. The paper pays a tribute to the wonderful personality of Mahatma Gandhi.

IMPERIAL ECONOMIC CONFERENCE.

DELHI, Dec. 8.

Newspapers publish further details regarding the proposed Imperial Economic Conference. Questions of emigration and settlement of territorial commercial development and of communications will be raised and it will be the desire of the British Government to discover and as far as possible to assist, where necessary, whatever schemes are capable of immediate prosecution. The idea broadly stated is to marshal imperial resources for the fullest possible economic developments of the Empire in order to secure mutual advantages to the Dominions and the mother-land. The requirements of Crown Colonies as well as of Self-governing dominions also will be surveyed. It is believed in well-informed inquarters that such a survey will reveal many desirable projects which could not hitherto be carried out owing to the state of local finances, but which might be executed if supported by Imperial credit. Lord Derby, Secretary for War will make next week a brief visit to the British Army of the Rhine.—B. O. W.

MONTAGU'S SILVER REPORT.

LONDON, Dec. 6.

Montagu's silver report states that the market seems just now to present rather steadier appearance, probably owing to the position of China, where stocks of sycee silver are shrinking somewhat quickly. There is, however, no reason for early renewal of confidence, though naturally prices are likely to rest awhile after the recent sharp fall.

America is not inclined to sell so readily now that there is possibility of China's replenishing its stocks from San Francisco. Steming of the decline has been rendered more difficult for bear covering, and this, together with few Indian buying orders, has brought about fairly strong reaction from last week's lowest price; but to-day buyers seem temporarily satisfied.—(Reuter.)

COINAGE AND ISSUE OF SILVER.

LONDON, Dec. 7.

In the House of Commons Mr. Baldwin answered in the negative to Mr. Oman's question suggesting that in view of the defacement and dilapidation in which base metal and silver of 1920-21 coinage was now falling the Chancellor of the Exchequer should revert to the issue of silver of the old standard which, at the present price of bullion, would be amply profitable to the Crown.—Reuter.

CITY EQUITABLE FIRE INSURANCE CO.

PROCEEDINGS AGAINST OFFICERS.

LONDON, Dec. 7.

In connection with the liquidation of the City Equitable Fire Insurance Company and other associated Companies the Official Receiver announces that he has carefully considered the question of taking proceedings against the officers of the Companies who were apparently guilty of breach of trust with a view to ascertain whether they will contribute to the assets of the Companies as compensation. Summonses had already been issued against some ex-officers of these Companies.—(Reuter).

AT LAUSANNE.

CURZON IN BISMARCK'S ROLE.

TOWNSHEND'S INTERVIEW WITH ISMET.

LONDON, Dec. 6.

Lausanne.—Sir Charles Townshend has arrived here and had an interview with Ismet Pasha. The Turkish delegation is most pleased at the turn taken in the negotiations which they regard as an indication of the spirit of Allied conciliation and desire to arrive at an equitable solution. They express appreciation of Lord Curzon whom they declare to be the dominating figure of the Conference, comparing his role with that of Bismarck at the Berlin Conference. —Reuter.

ALLIED PLANS FOR THE STRAITS.

DELHI, Dec. 8.

It is expected that the commission of the Lausanne Conference dealing with the Straits problem will meet again to-morrow. To-day the various commissions considered matters of detail. All press comment on the Allied Straits plans are highly favourable. The "Evening Standard" says "There are both unity and definition in the attitude of the Allies at Lausanne towards the Straits question. They are ready to deal as tenderly as the case permits with Turkish susceptibilities and they are not acting in any spirit of hostility to Russia. But they are resolved that the Black Sea shall not be a Russian lake and that Turkey shall not act as a mere doorkeeper for Russia."

The "Evening News" says "One might suspect that at the back of the Bolshevist mind is the design to menace Rumania, which the freedom of the Straits would frustrate. The plot has been defeated by the perfectly fair proposals of the Allies as outlined by Lord Curzon and as Turkey would get no more and might get a deal less by fighting, Ismet Pasha is wise in submitting the terms to his Government. Turkey needs peace. We want it. And Lord Curzon's scheme will be a satisfactory solution for both parties."

Newspapers show much satisfaction at the views of the United States as expressed by the Allied representatives at Lausanne. He insisted in particular on the right of the commerce of the world to make free use of the waterway and could not accept the proposal to exclude warships which were agents of peace as well as of destruction. It was, he declared, untenable that any-one nation by virtue of geographical accident should hold the power of excluding every nation from its commercial rights. It would be, he said, against the interests of every nation on the Black Sea. The united control of the Straits and the Black Sea by any one nation is against the policy of the world. American newspapers' comments strongly support this alignment of the United States with Allied policy.—B. O. W.

U. S. AND CONTROL OF THE STRAITS

LONDON, Dec. 7.

New York.—The Associated Press of America's representative at Washington says that the question whether Government is prepared to participate in the international control of the Straits still await answer, but it can be definitely said that the United States is not committed to participation. Presumably, American attitude will only be determined after full consideration of the specific proposals of the Allies.

The "Times" says the inevitable consequence of Mr. Child's announcement is that the United States must be ready to cooperate in carrying out its own declared purposes, America cannot refuse to accept membership in the Straits Control Commission.

The "New York World" declares that nobody has proposed a plan for the Straits half so good as the Allied one. Unless Washington has something better up its sleeve, it must accept the proposal or eliminate itself from the discussion.—Reuter.

ALLIED NAVAL AND MILITARY MEETING.

LONDON, Dec. 7.

Lausanne.—The atmosphere to-day is one of rest after the anxiety of yesterday. It is generally felt that the turn which the discussion took yesterday has brought about a favourable phase in the proceedings of the Conference. A particularly interesting meeting occurred last evening between the Allied naval and military experts, over which General Weygand presided. Turkey and Russia were represented and the Turkish General expressed no dissatisfaction. Relief is generally expressed that the Allied proposal did not include the Allied garrison at Gallipoli.—Reuter.

CHICHERIN INSISTS ON CLOSING THE STRAITS TO WARSHIPS.

LONDON, Dec. 7.

Lausanne:—A divergence is reported in the Turkish and Russian views with regard to the Allies' scheme for settling the question of the Straits, the former considering that it forms the basis of further negotiations, while M. Tchitcherin says he will not sign any settlement if the Russian demand for closing the Straits to warships is not accepted. The Turks do not seem to be perturbed by the Russian attitude and declare that they are the party principally affected as regards the security of Constantinople, while the question of the Black Sea may be considered later.

EXCHANGE OF POPULATION.

Speaking before the Minorities Sub-commission the American representative protested against the proposal for compulsory exchanges of population except where they were necessary to secure humanitarian ends. He especially disapproved movement of the Greeks from Constantinople. His statement impressed the Turks who will probably abandon the demand for expulsion of the Greeks.—(Reuter).

"TURKEY IS RIGHT."

LEADING FRENCHMAN'S VIEW.

BETRAYAL OF FRENCH INTERESTS.

DEMILITARISATION OF THE STRAITS.

EXTRAVAGANT ALLIED PROPOSALS.

(From Our Special Correspondent At the Peace Conference)

LAUSANNE, Dec. 7. 3 p.m.

The opinion expressed in yesterday's telegram regarding the attitude of the French delegation is fully confirmed by the following declaration of M. Claude Farrere in the review "Orient et Occident":—

"The Lausanne Conference has at this moment taken a turn which was not expected and by which I am literally overwhelmed. It is extraordinary that in the management of matters in which all French interests are concerned, these interests should be defended only by the Turkish delegate, Ismett Pasha, and totally abandoned by Messieurs Barrere and Bompard, who appear to be anxious to note the sign and obey orders from London and sacrifice our French influence in the whole world of Islam to the Balkan Entente, which meanwhile cost us so dear in 1912. Mudania was our success, while Lausanne is a renunciation. There is no doubt that Turkey will no longer preserve any sense of gratitude though it was the most desirable thing, for us. The conscience of an honest man compels me to declare that Turkey is right and the French Plenipotentiaries are wrong. It seems that once more M. Venizelos and Sir Basil Zaharoff between them will contrive to force the French Government to work against France."

FORTIFICATION OF STRAITS.

PROBLEM OF ANATOLIAN REFUGEES.

LEAFIELD (Oxford), Midnight, Dec. 8.

The British Government continues to give its most serious attention to the problem of refugees from Anatolia and Thrace who are now in Greek territory. It has contributed as much assistance from public funds as the present financial struggle allows. Following up its action in chartering British ships for the removal of refugees from Asia Minor forty thousand out of two hundred twenty thousand having been carried on British vessels by the beginning of October—the British Government chartered more vessels to assist in removing the Christian population of eastern Thrace, the total sum extended so far being approximately 52,000 sterling. Medical stores held by the War Disposals Board have been released to the value of 10,000 sterling and are being sent by special trains to British Relief Societies working in Greece.

Of the sum of 50,000 sterling offered to the League of Nations by the British Government on the condition other Governments offered like amount, 16,000 has already been paid over. An official appeal is being made in this country through the press for private contributions to British organisations engaged in relief work. B. O. W.

YEBHI EFFENDI.

APPOINTED COMMISSARY OF RELIGIOUS AFFAIRS.

LONDON, Dec. 8.

The Diplomatic Correspondent of the "Daily Telegraph" learns that the National Assembly at Angora has appointed, as Commissary of Religious Affairs, (a position tantamount to that of Sheik-ul-Islam) the Deputy for Konia, Vehbi Effendi. He was only a religious member on the Special Committee of the Assembly who pronounced in favour of the separation of the Khalifate and the Sultanate and the abrogation of the latter.

Unconfirmed reports state that the former Sheik-ul-Islam intends to proceed to India in order to enlighten the Moslems there on the inward meaning of the recent proceedings at Angora and Constantinople.—(Reuter).

LOCAL BOARDS

AMENDING BILL

DEBATE IN COUNCIL.

On Friday the Council was occupied practically the whole of the day in discussing the question of a separate electorate to Mahomedans on the District Local Boards. The Select Committee appointed for the purpose recommended the creation of general and Mahomedan constituencies for the District Local Boards, which gave rise to a spirited discussion on both sides. A Mohamedan member from Sind went to the length of warning his co-religionists, through his manuscript oratory against "the catchwords of Hindu-Moslem unity and to protect their own interests." Mr. Changule and Mr. Kambli who appreciated the difficulty of press representatives more than anybody else were good enough to sit on the official bench nearest the press representatives to make themselves audible in their support of the claim for separate electorates for the Mohmedans. Mr M. W. Pradhan was found to be not lagging behind in regard to this matter. He solemnly asserted that it was for the Indian National Congress and the Moslem League to convince them that there was real Hindu-Moslem unity. He supported the demand for separate electorates for Mahomedans. Another Hon. Member expressed his fears that in the near future women might ask for separate electorate on the ground of their backwardness. After a lengthy discussion the amendment was put to vote and was declared lost. The original clause retaining the words "general and Mahomedan constituencies" was carried.

At the end of the day, a Sardar enlivened the Council by bringing in an amendment for the introduction of a landlords constituency in the local boards by according them special representation. This was opposed by another landlord who breathed a democratic atmosphere while the Thakor of Amod supported the amendment because he interpreted the word "democracy" as meaning not the domination of one class over another but the co-operation of all classes. The amendment was however thrown out by a large majority.

PROCEEDINGS IN DETAIL.

On Friday the business of the Bombay Legislative Council started with a list of questions and answers which being gone through consideration on the second reading of the Bill. No. XVI of 1922, a bill to consolidate and amend the law relating to local boards was resumed.

Mr. C. M. Gandhi (Surat City) opposed granting of separate electorate to Mahomedans as against a general constituency and moved an amendment that instead of general and Mahomedan constituencies "persons qualified to vote at the elections and whose names are entered in the revised list of voters" be substituted.

Khan Bahadur Shah Nawaz Ghulam Murtza (Larkana District) opposed the amendment and said recent proceedings of the Council showed that there was no real unity between Hindus and Mahomedans. He warned his co-religionists to beware of such catchwords as Hindu-Moslem unity.

Mr. G. B. Trivedi (Thana District) said nations cannot advance while their component parts were left behind. A strong man required the help of a weak person too, to go ahead. He sympathised with the claims of the backward communities whether they be Hindus or Mahomedans. He deprecated, however, the system of separate electorates and suggested a compromise of granting a few reserved seats to Mahomedans and at the same time have a mixed electorate.

Mr. D. T. Ojha (Karachi City) emphasised that there was Hindu-Mahomedan unity existing. He instanced the case of Karachi city which being cosmopolitan, was not in the hands of Hindus only but there were on its Council also Parsis, Christians and Mohamedans, besides Hindus who were working harmoniously. He thought that as far as Sind was concerned the Hindu community was bound to gain by communal representation. He requested the Minister in charge to introduce mixed instead of communal electorates, wrich he hoped, would meet the ends of justice. He (speaker) was told by many educated Mahomedans of high position that mixed electorate was the best for the country.

Mr. A. P. Changule, (Belgaum District) in opposing the amendment said that communal representation was the best safeguard. An analysis of elections would show that their Mahomedan friends were seldom returned and particularly the result of Municipal elections was very disappointing.

Mr. S. T. Kambli (Dharwar District) said that the district from which he came got 14 members to the District Local Board but so far not a single Mahomedan was returned. He therefore pleaded for separate representations for the Mahomedans.

Mr. M. W. Pradhan, (Thana District) in opposing the amendment said it was for the Indian National Congress and Moslem League to convince the country that India was United. The Hon. Minister in charge of the Bill had taken the right view in proposing separate electorate to the Mahomedans. He honestly believed that the Bill had come from a Cabinet which was one-fourth Mahomedan. The Council too, he averred was more than one-fourth Mahomedan. If they wanted to maintain unity it was desirable that the three-fourths of the Council which was non-Mahomedan should vote for separate representation.

Rao Bahadur G. K. Chitale (Ahmednagar District) said that the electors wanted to elect men of their own choice rather than have separate election.

Rao Bahadur R. R. Kale (Satara District) favoured general rather than special electorates. Generally an argument was advanced that the Mahomedan community being backward, required separate representation. He thought that women might likewise come forward to demand separate representation. He therefore opposed separate electorates for the Mahomedans.

After the Minister in charge had replied to various criticisms, the President put the amendment to vote and it was declared lost. The original proposition was then carried.

The Council next considered an amendment of Sardar V. N. Mutalik, providing for landlord constituencies.

Mr. G. B. Trivedi (Thana District) opposed the amendment though he was a landlord, because they lived in a democratic age with widened franchise and therefore there should be no special place for the landlord class.

Sardar N. Ishwarshinghii. The Thakore of Amod, supported the amendment. He said there were occupants of Government land and also Talukdars with proprietary rights whose interests should be safeguarded. It was said that they lived in a democratic age but that did not mean that one class should dominate over another. What they wanted was the co-operation of all classes.

The amendment was thrown out by a large majority.

The Council then adjourned till to day.

To meet the increased working cost the revised rates have been adopted on all Indian Railways. Up to 1917 grafts used to be charged at half parcel rates, but since 1st April 1917 this concession has been withdrawn by all the Indian Railways as decided by the Indian Railway Conference. "UNCONSCIONABLY HEAVY."

In its leaderette the "Hindu" writes:—The sentence of Rs. 5,000 fine passed on Mr. Pickthall by the Bombay High Court in what is known as "The Chronicle Contempt Case" seems to us unconscionably heavy, having regard to the circumstances of the case and the straightforward nature of the defence. The facts of the case are that in the absence of the Editor and without his knowledge a paragraph crept into "The Chronicle" as a part of an occasional writers' contribution. That the paragraph constituted contempt of Court was not denied. Indeed, as soon as Mr. Pickthall saw it in the paper next morning he promptly published an apology in respect thereof. There was only one circumstance that seemed to stand against the Editor and that was that the offence was a second of its kind. In regard to this fact, however, it must not be forgotten that the writer of the paragraph now under complaint was not the gentleman for whose writing Mr. Pickthall was first warned. If Mr. Pickthall has wilfully encouraged a writer known to be a dangerous writer or he had neglected to keep a watchful eye over his writings, the case would have been different. It is not established that in this case Mr. Pickthall did not take all ordinary precautions or that he continuously connived at the offence. In the circumstances most people will, we feel, be disposed to think that a less vindictive sentence would have quite fully met the ends of justice. It is a pity that in this country the judiciary seldom realise the serious disadvantages under which the Press labours.

TINNEVELLY MUNICIPAL CRISIS.

A Tinnevelly correspondent of the "Hindu" wires under yesterday's date, that the Municipal crisis there has developed most dramatically. A meeting that was adjourned by the councillors who conducted the meeting on Saturday after the Chairman left came off last evening at 5-30 p.m. At 5 p.m. yesterday an important sub-committee was notified to meet, but it was cancelled by the Chairman at the eleventh hour. When the councillors went to the Municipal Office it was found closed even at 4-30 p.m. and not a member of the staff was anywhere to be found. The councillors who were thirteen in number met at the verandah where a large number of ratepayers had assembled as visitors. After recording fully the circumstances under which they met, they unanimously passed the following resolution:—"That this meeting of the Municipal Council regrets that the Chairman has in defiance of unanimous resolution of the meeting of 12-12-22 closed the doors of the office against Council and records its strong condemnation of his unconstitutional, irresponsible and autocratic conduct." Resolutions were also passed to the effect that the original proceedings of this meeting should be incorporated into the minutes book and that the President, Mr. K. N. Sankarier should communicate copies of it to the Honourable Minister for Local Self-Government and the District Collector. A requisition was then signed by twelve councillars to convene a special meeting of the Council to consider the subject of Mr. Thirukutasundrams' resolution which the Chairman refused to admit.

FOR REFUSING TO FURNISH SECURITY.

MOULVI SENTENCED TO ONE YEAR

(From Our Own Correspondent.)

BELGAUM, Dec. 7.

The trial of Moulvi Abdulla Saheb of Nandgad, District Belgaum, under section 108, commenced before the Sub-Divisional Magistrate and was concluded within half an hour. The Moulvi Saheb refused to defend himself. The prosecution evidence consisted of two police constables and a villager. The alleged incriminating statement was that the Moulvi Saheb asked the people to show courage by taking up arms. The Moulvi Saheb stated that though the witnesses had lied wholesale, he refused to cross-examine them, as he had no faith in present day justice. He denied having preached violence, and said that he followed the creed of Mahatma Gandhi and the instructions of the Khilafat Committee. He refused to furnish security. The Moulvi Saheb was sentenced to one year's rigorous imprisonment. He was calm, dignified and cheerful throughout the trial. The Moulvi Saheb was the Secretary of the Congress Committee and president of the Khilafat Committee at Nandgad. This is the twenty-first conviction for Sedition in the Karnatak.

MARKET REPORT.

During the week a further decline has been registered. American advices have not been calculated to stimulate any bullish enthusiasm demand from Japan and Europe has been meagre and heavy arrivals have had a depressing effect.

The question of short time is under discussion in Japan and a reduction in working hours is indicated. A sagging market has resulted culminating in a break below the Rs. 450 level for F.G. Broach April-May. More support has since been forthcoming from Japanese exporters, but until short time in that country has been inforce long enough to alleviate the situation and Indian mills are also able to sell their products on a more profitable basis, there seems little likelihood of any real strength in this market.

WEATHER AND CROP.

All the crops are now being marketed freely up-country and arrivals into Bombay are gtradually increasing. Owing to the heavy rains a fortnight ago the quality, especially in the Oomra districts, has been seriously affected. The cotton is full of black leaf and stained.

FOREIGN MARKETS.

Dec 8

During the week under review the Home Markets show sharp decline both in Liverpool and New York. In the commencement of the week the market declined on general liquidation and on reports of poor trade and small demand. Later on prices improved on short covering and trade buying. Messrs. A. Norden and Co.'s cabls from New York read as under:—"While impaired confidence may cause further decline we advise buying whenever market weak."

Slack trade has caused an easier tendency at Home in the American markets. Prices have declined about 60 to 70 points. National Ginners Association's report shows an estimate of 9,250,000 bales ginned till 30th November 1922, which confirms previous estimate of crop about ten millions. The Agricultural Bureau Report is expected to be approximately the same. With the Christmas and New Year Holidays drawing nearer there may be a further easing off in prices owing to the poor spot demand, but opinion at Home strongly favors higher prices in the long run. We still recommend buying round about present levels and in weak markets.

Our local market during the week was very dull and featureless, and the prices continued to rule very low compared with Americans. We confidently look for this disparity to be adjusted sooner or later. The quotation for Dec.-January Oomra which was in the beginning of the week at a premium of Rs. 6 over March again ruled at a discount of Rs. 2-8 on the 6th instant. Our opinion is in favour of making purchases whenever market is weak.

The following were the changes in the Home markets as compared with a week ago.

	Last week.	This week.
Liverpool January ...	14.07	13.60—47
Liverpool March 13.88		13.44—44

Liverpool July	13.52	13.14—38
New York Jan.	25.28	24.66—62
New York March	25.31	24.78—53
New York May	25.23	24.74—49

LOCAL FORWARD MARKET.

Fully good M. G. Broach April-May opened on the 1st instant a Rs. 469½ and went up to Rs. 491½ on buying by Marwari jobbers. The prices from this level eased to Rs. 446 on Japanese Houses, Offices as well as Commission Houses selling, and in sympathy with continued lower advices from Home. The prices touched Rs. 469½ on the 6th instant on buying by Marwari jobbers and Japanese Houses, and after fluctuating closed on the same day at Rs. 450½. Fine M. G. Oomra Dec.-January opened at Rs. 415 on the 1st instant and going up by a couple of rupees declined to Rs. 395 on free selling by Japanese Houses and in accordance with weak advices from America, and after a meagre fluctuation closed on the 6th instant at Rs. 398. Whilst Oomra March opened at Rs. 410 on the 1st instant and steadily declined to Rs. 396 on Offices and general selling and in sympathy with the decline in Oomra December January. On buying by one Japan House the prices improved to Rs. 399 and closed on the 6th instant at Rs. 400. F. G. M. G. Bengal December-January opened at Rs. 331 and closed at Rs. 326 on the 6th instant the highest being Rs 331 and the lowest Rs. 323. Whilst March opened at Rs. 338 and closed at Rs. 331 on the 6th instant the highest being Rs. 338 and the lowest Rs. 329. The market was easy and featureless during the week.

PIECE-GOODS.

Throughout the past week the cloth market has remained dull and quiet, owing to the total absence of demand, wholesale as well as retail. The buyers seem to be expecting a further decline in the current rates and are therefore adopting a waiting policy. The local agents of up-country buyers are chary to send goods on credit and business is restricted for want of this facility. In Ahmedabad picketing of foreign cloth shops has been going on and promises are being taken from the dealers not to buy foreign cloth for the present. It is reported that more than forty such promises have been obtained. In Surat it is expected that picketing will be commenced shortly, and it is also heard that in Bombay picketing of foreign cloth shops will begin from next month. The sale of khadi is being pushed energetically and vigorous efforts are being made to bring the total sum to a decent figure during this month. Amongst the coarser classes khadi has been the chief attraction owing to lower price durability and sentiment, especially during this cold weather, as the thick texture gives warmth to the body. With the middle classes khadi has taken the place of woollen and lamey cloths for coats etc. It has also served as a substitute for prints as the consumers are now returning to simplicity of style for their wear. Local mill check cloths have received a set-back in consumption, as these are being replaced with khadi. The offtake of local mill cloths for the African markets has been poor as these cannot stand in competition with foreign cloths, owing to the disparity in customs duty. For foreign goods transhipped to Africa the refund of duty can be obtained on the high value ruling say two years back, which places the local mill cloths to a disadvantage. The market has been so disorganised for want of financial facilities, that any substantial improvement cannot be expected for at least six months hence. The depression in Japanese Grey cloths has reflected on other styles, and the recent heavy arrivals have tended to accumulate stocks. The stagnation of trade has been so disorganised for want of financial circles, the more so as the old stocks still remain to be liquidated.

The Manchester market has been firm. Makers have been quoting high prices, with the result that business has been quite impracticable, and they are obliged to restrict production on a large scale. When prices are on such a high level, they are chary to make goods to stock and prefer to allow machinery to stand idle than book business at rates which are unremunerative. For several styles of white goods pretty early delivery has been offered, but the quotations have been too high for business to result. The Egyptian cotton crop for this season has been officially estimated at 4,800,000 cantars against 5,488,000 cantars last year, which is rather below expectations.

The quotations for the leading chops of Greys and Whites are as under :—

MONEY.

The activity in the money market which we noticed in our last report was sustained this week with a good demand. There was an all round inquiry for call money at 2½ per cent. The rate for short termed deposit has also improved and Banks are willing to pay over 4 per cent for three and six months period. There is a general belief in the market that the Bank-rate will be raised to 6 per cent before long, as a further shrinkage in the cash balance is expected next week.

From the weekly statement of the Imperial Bank of India, Government deposits show an increase of Rs. 102.92 lacs, while the other deposits show a decrease of Rs. 182.54 lacs. The cash balance is reduced by Rs. 135.43 lacs and now stands at Rs. 25,67,15,000, the percentage being 33.74 as compared with 35.19 of last week. The Bank rate remains unchanged at 5 per cent. There was a further decline in the price of gilt-edged securities and the rate for 6 per cent bonds is now about 3/16 per cent premium. Bonds for delivery in January are available at par.

No tenders were received for the Treasury bills offered on the 1st instant. As indicated in our previous report, the Government of India have stopped at present the weekly sale of treasury bills, but continue selling intermediate bills for six months at Rs. 97-11 per cent.

EXCHANGE.

Exchange opened round 1 s. 3-15/16 d. but steadily declined during the course of the week to 1 s. 3-7/8 d. and closes steady at this level. There is a decrease in the amount of export bills on offer in the market, both here and in Calcutta. The demand for bullion import is as yet on a limited scale, but there is a general belief that we shall see a revival before long.

American Exchange on London improved from $. 4.51½ to $. 4.56-5/8 and closes steady at $. 4.57. The German mark moved between 35,000 and 38,000 to the pound sterling. French francs have depreciated and the highest and lowest rates during the week were 65.30 and 64.40. Italian Exchange has improved from 95.00 to 91.50.

GOLD.

Gold continued steady during the early part of the week, but subsequently our prices gave way, following the decline in the price of the metal in London from 91 s. 4 d. to 90 s. 1 d. in sympathy with the American cross rate. The off-take averages about 15000 to 16000 tolas a day and the stock is estimated at about 4 lacs tolas. The highest and the lowest rates during the week were Rs. 26-3-0 and Rs. 25-14-0 for ready delivery. This week's shipment is expected to be for about £. 1,35,000/-.

SILVER.

Silver likewise continued steady during the early part of the week on firmer advices from London, but eased off and declined to Rs. 82-5 on bulls unloading and as the result of sales by China Banks. The Shanghai-London rate dropped from 3 s. 2-1/8 d. to 3 s. 1-1/4 d. The price in London improved from 32-7/16 d. to 32-7/16 d. for ready and from 31-15/16 d. to 32-1/16 d. for forward delivery, but later declined and closes easy at 31-7/8 d. for ready and 31-5/8 d. for forward. The off-take continues on an average of about 100 bars a day and the stock is estimated at about 1400 bars. Heavy arrivals are expected by the incoming mail steamers from London and Australia. This week's shipment is expected to be for about £1,60,000/-.

SHARES.

There were only three working days on the Stock Exchange and the volume of business put through was of a strictly limited nature. Prices on the whole continued steady. Both the cloth and the yarn markets show no signs of improvement and we cannot as yet look for any encouragement to the share market from these quarters. Bombay Dyeings continued steady round Rs. 1185, Central Indias round Rs. 3,355, Centuries round Rs. 575, Crescents round Rs. 395, Kohinoors round Rs. 1,700, New Greats round Rs. 545 and Pearls round Rs. 845, while Swadeshis have dropped from Rs. 3,210 to Rs. 3,175.

In the miscellaneous section, Tata deferreds continued steady round Rs. 92/8, with Bombay Trams round Rs. 102/8. Katni Ordinaries are quoted at Rs. 210. Indian Cement round Rs. 205, and Bundi Cement around Rs. 2[illegible] Bank shares remained steady, with Imperial Bank round Rs. 1,355 and the Contributories around Rs. 342/8. Bank of India shares are quoted at Rs. 97 and Tata Banks at Rs. 15/4 ex-dividend.

SCINDIA STEAM NAVIGATION CO'S REPORT.

BOMBAY U. K. CONTINENT.

BOMBAY, Dec. 8.

Market is a littl firmer and more business has been done though confined chiefly to one or two large shippers, Hull being in most demand. About 30,000 tons altogether have been booked for December-January.

D/W tonnage rates remain about the same 27/6 to 28/ and steamers are firmly held.

INDIGO.

The Department of Agriculture, Bombay, has issued the following memorandum on the Indigo crop of the Bombay Presidency, including Sind and Native States, for the Season 1920-23:—

(Estimates up to 20th November 1922.)

The total reported and estimated area under Indigo stands as under:—

	Acres.
British Districts	2,000.
Native States	9,100
Total	11,100

18.1 and 76.6 per cent respectively over the area of the last year and the quinquennial average. The cultivation of the crop is chiefly restricted to two Districts of Sind, Nawabshah and Sukkar, and to the State of Khairpur. Favourable and good inundation and great demand in the market brought on large expansion of areas under sowing principally in Khairpur State.

The crop throve well everywhere and was reported free from disease. Harvesting was begun in the second fortnight of October as usual.

The total estimated outurn works out as under:—

British Districts.	400
Native States.	1,500
Total.	1,900 Cwts.

23.6 and 36.7 per cent respectively over the previous year and the quinquennial average.

The Department of Agriculture, Bombay has issued the following memorandum on the rice crop of the Bombay Presidency, including Sind and Native States, for the Season 1922-23:—

Estimates up to 20th November.)

Area.—The total reported and estimated area according to the latest information received stands as under:—

	British Districts Acres.
Presidency	1,717,000
Sind	1,143,000
Total	2,860,000.
	Native States. Acres.
Presidency	418,000
Sind	8,000
Total	426,000

Total 3,286,000 acres.

4.5 and about the same percent respectively below the area of the previous year and quinquennial average. Owing to insfficient and late ruins at sowing, areas under cultivation showed a general decline in Gujarat and Kathiawar and other Gujrat States and Karnataka; elsewhere there was a slight increase due to seasonable and timely rains. In Sind favourable inundation and good water supply resulted in extending the areas under this crop throughout all the districts.

Season.—Crop in North Gujrat grew well at first but the long spell of dry weather in July and August retarded somewhat the growth of young seedlings. Owing to uneven distribution of rain, transplantation could not be properly carried out and part of the area particularly in the East had to be reserved for Rabi crops. The crop, however, on the whole, was good wherever irrigation facilities were available and water was given, and fair elsewhere for want of sufficient moisture. The crop in the South throve well from the beginning. In Kathiawar and other Gujrat States it has done fairly well. Crop in Thana and in the Konkan, on the whole, flourished throughout the season. In Kanara premature commencement of early rains injured the crop and lowlying paddy fields suffered from excess of water. Pigs did considerable damage at flowering stage trampling and eating up the crop in many places. In most of the tracts of the Deccan and Karnatak bordering on the Sahyadries the crop was generally good but further East it suffered greatly from prolonged draught from August to end of October Good rain in early November revived the late crop in most places but it damaged the early crop which was already harvested and lying in the fields for harvest. In Sind good water supply owing to excellent performance of the river except on lands watered by the West Nara Canal where sowings were interfered with due to obstruction in the mouth of the canal, brought about extended cultivation. The season later on continued very favourable and the crop flourished well everywhere and was reported to be free from damage. In the Presidency harvesting of early varieties was mostly done in October and that of the late one will be in November and December about a fortnight later than usual. In Sind it was done normally in the second fortnight of October.

Outturn.—As a result of the conditions described above, the outturn of Rice in South Gujrat has yielded 90 per cent while in the North it was very much lower. In the Konkan the crop has given a full normal yield except where damaged in the manner detailed above where it was only 85 per cent. In the Karnatak and S.M.C. States and Deccan it has ranged from 60 to 75 per cent. In Sind the yield varies from 75 per cent in the South to 90 per cent in the North.

The total estimated outturn stanads as under:

	British Districts. Cwts.
Presidency	16,145,000.
Sind	8,826,000
	24,971,000.
	Native States. Cwts.
Presidency	3,717,000
Sind	52,000
	3,769,000.
Total	28,740,000 cwts.

4.2 and 5.4 per cent over the outturn of last year and the quinquennial average respectively.

and other troubles of the stomach and liver yield readily to the ideal stomach and liver tonic—Mother Seigel's Syrup. This favourite family remedy contains medicinal extracts of roots, barks and leaves, which, in combination, possess in a remarkable degree the power of toning and strengthening the organs of digestion. Take it daily after meals, and your digestion will become perfect, and your general health will very quickly benefit.

SPEEDILY BANISHED BY THE HERBAL REMEDY

"Some years ago," says Mrs. M. Slanekom of 18, Fishery Road, Port Elizabeth, "my food gave me little or no nourishment, and at times would quite upset me, bringing on a nauseous feeling. I suffered almost daily from sick headaches. I was unable to carry out my everyday duties. I tried ordinary medicine, but derived no benefit.

"My sister, who was using Mother Seigel's Syrup for indigestion, induced me to try that remedy, as she was deriving great benefit from its use. I did so, and had almost immediate relief. Thus encouraged, I continued the use of Mother Seigel's Syrup. My health gradually improved, until I was completely restored to my former health and strength." Test it to-day

A HAPPY BABY MAKES A HAPPY MOTHER
A Mother says: "My son has grown into a fine healthy boy. He has been fed on Glaxo, and I think it has assisted nature in a wonderful way."

Such a Good Baby!

Is that the description of your little one? Happy and smiling when awake, sleeping peacefully at the proper time—a "good" Baby.

A healthy Baby is just as good as gold, for health and happiness go hand in hand—and health is mainly a question of right feeding. If *your* Baby cannot be breast-fed, let him have Glaxo, the one safe and suitable alternative to breast-milk.

Glaxo is the nourishing solids of pure, rich milk, made germ-free and specially digestible by the Glaxo Process. It contains everything to nourish Baby and nothing to cause him harm. Every drop is assimilated easily by the weakest Baby, and peace, happiness; "goodness" follow.

Glaxo
The Super-Milk
"Builds Bonnie Babies"
the safest, purest form of milk for every milk purpose.

Ask your Chemist to show you the Glaxo Feeder, the feeder Baby likes best.

Tins of Glaxo specially packed for the Indian Market always bear the "Glaxo Baby" on the centre panel and the wording "for consumption in the tropics." The food contained in tins so marked is guaranteed fresh by the makers. Do not purchase any tins which do not bear the above trade mark and wording.

BANGALORE FORGERY CASE.

ACCUSED SENTENCED TO 8 YEARS.

(ASSOCIATED PRESS.)

BANGALORE, Dec. 8.

At the Sessions Court to-day Mr. B. Nagappa, Bar-at-Law, pronounced judgment in the sensational case of alleged forgery and tampering with Government records for improper purposes against Laksmansami of Papiah Chetty Brothers sentencing the accused under sections 417, 467 and 511 I P. C. to an aggregate period of eight and a half years' rigorous imprisonment to run concurrently. The judgment traced the whole history of the case and discussed how educated men of the nature of accused when they misdirected their brains and energy could prove more dangerous to society than members of ordinary criminal gangs.

SEQUEL TO PARK FAIR CONTROVERY

JUSTICE COUTTS TROTTER RESIGNS PRESIDENETSHIP OF S. I. A. A.

(ASSOCIATED PRESS.)

MADRAS, Dec. 7.

The Hon. Mr. Justice Coutts Trotter has resigned the presidentship of the South Indian Athletic Association. He says in a letter to the Joint Secretaries of the S. I. A. A. that the question of the Park Fair has reached the stage at which it may enter. perhaps, has entered the region of political or quasi-political controversy in which he as a Judge cannot participate either directly or indirectly in conjunction with others. It is obvious in the present circumstances that the Association should have the benefit of advice and help of a President whose hands are not tied.

TROUBLE IN AGENCY TRACTS.

(ASSOCIATED PRESS.)

MADRAS, Dec. 7

The following press communique has been issued to-day:—Government have noticed the suggestion in the press that the public are not being given sufficient information about the state of affairs in the agency tracts. They can assure the public that no news of importance is being witheld from them and the only reason why no communique has been issued lataly is that there has been very ltle of interest to report. About the middle of November Mr. Happel made arrangements to surround and surprise the rebel camp which was situated in an almost inaccessible position at a place called Ganaukonda, some miles north of Sarabhanapalam. At the last moment the rebels moved their camp which was found deserted and a few days later a number of them made their appearance in several villages outside the agency border.

In the Godaveri District they helped themselves to supplies where necessary but appear to have done no material damage. They were pursued by detachments of police but they moved rapidly and mostly by night and the police were unable to come up with them or to obtain correct information as to their movements in time to cut them off. They succeeded, however, in capturing one or two members of the gang After creating this diversion the rebels made once more for the hills. They seized supplies in several villages near Golugonda on November 30th but returned immediately to Dhar Hills. The latest information is that on the morning of 6th December a party of some fifty police under Messrs. John Charsely surprised the rebels in the village of Peddageddalam and after a running fight during which the Malabar Police had to advance a mile under heavy fire killed four of the rebels, captured two and wounded several more.

The New Way to Reduce

Weight—Remove Superfluous Fat—and Regain a Normal, Youthful Figure!

NATURE, always precise in what she does, in making one of a certain height meant that the person should be of a particular weight. It was for Medical Science to investigate what Nature considered a normal weight for a man or woman of a certain height. The result arrived at is tabulated below for the guidance of all who feel that they are too stout and wish to

Look Years Younger

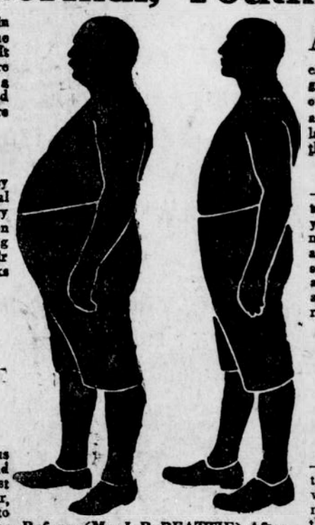
Stout people always look older than what they really are. This is not only due to their abnormal size and form, but also because the fat they carry presses upon and interferes with the natural action of the heart, lungs and kidneys, thereby bringing about a premature ageing which is reflected in their faces. Remove the fat and the same person looks years younger. It remained for the discovery of

Registered OBESO THIN Trade Mark

—the wonderful, natural treatment for superfluous fat, to rescue all stout people from the ills and blemishes that fat makes them heir to. Huge, almost immovable bodies are rapidly changed to slender, graceful, youthful figures, and what are supposed to be ineffaceable wrinkles steadily vanish, leaving the skin smooth, clear and soft. Most remarkable, moreover, is that the health is improved and you—

Obtain Renewed Energy

—and vitality within a short time of commencing the treatment. Eyes become brighter, steps become more elastic; weakness, nervousness, indigestion, languidness, shortness of breath and the hundred and one dangerous organic ailments, peculiar to the stout, disappear as if by magic. If you are in any way above normal you are outraging nature—you are overtaxing your vital organs. Stop it! Take "OBESO-THIN."



Before. (Mr. J. B. BEATTIE) After.

Chandernagor, 15th October, 1922.

"Before commencing the 'OBESO-THIN' Treatment I weighed 254 pounds. I am now 170 pounds. I hardly ever took exercise, seldom walked even short distances, always taxied it. The result was my health was impaired and I suffered from liver troubles, constipation, and flow of blood to the head under the least exertion. I was never better in health than I am to-day, in fact, I am glad to say that I now attend to my business myself, feel really fifteen years younger and walk everywhere I wish to go and enjoy it. I calculate that the money spent on the treatment is now being saved many fold in the amount I owe on taxis, phaetons, etc."

(Sd.) *JOHN B. BEATTIE,*
India's Premier Turf Accountant.

ALL energy exhausts itself, unless replenished. The natural energy, which one's system generates, has its limitation and would soon exhaust itself if it was overburdened. Fat is the greatest burden of all. Though at first the vital organs are able to generate such additional energy as is required, a slackening-off is soon apparent, in lassitude, reluctance to move about or walk. It is then that fat grows fast apace. The—

Easiest—Quickest—Healthiest

—way to "nip things in the bud" is to commence taking the "OBESO-THIN" Treatment immediately you notice yourself putting on flesh, for when this new, healthful, natural way to reduce is employed at the very beginning, the change is very rapid. Very stout people should not, however, get disheartened if after adopting the treatment for a week or so no appreciable reduction is obtained. In such cases results from

Registered OBESO THIN Trade Mark

—are generally evident during the second week of taking the treatment. The reason for this is that when there is a supply of fatty atoms in the blood, nature is perplexed in finding use and storage for them, and deposits these atoms in those parts where the circulation is weakest. The great advantage of the "OBESO-THIN" Treatment is that you are required to practice

No Painful Self-Denials—or

—strenuous exercises. You are not required to starve, fast or abstain. You reduce from 3 to 5 pounds per week in proportion to the way in which you follow the directions that accompany every tin. The more sedulous you are, the more gratifying will be the results. Above all, you can take "OBESO-THIN" without fear of it affecting your heart or other vital organs, or leaving behind any distressing symptoms.

ANALYTICAL REPORT

8|F, Lall Bazar Street, Calcutta, 30th October, 1922.

"We have made a careful examination of the sample marked 'OBESO-THIN' received from you on the 25th instant, and find it to be free from injurious substances. In our opinion it is suitable for human consumption in the manner prescribed."

(Mr. ARTHUR W. SMITH.)

Calcutta, 22nd October, 1922.

"I am pleased to report that I have reduced at the rate of 12 pounds every three weeks, since taking your "OBESO-THIN" Treatment. Always a sceptic regarding flesh-reducers, at first I was reluctant to take 'OBESO-THIN.' Anyway, after the first dose had gone down I felt that I should at least try it out for a week. The results proved so promising that I decided to continue until I reached normal proportions."

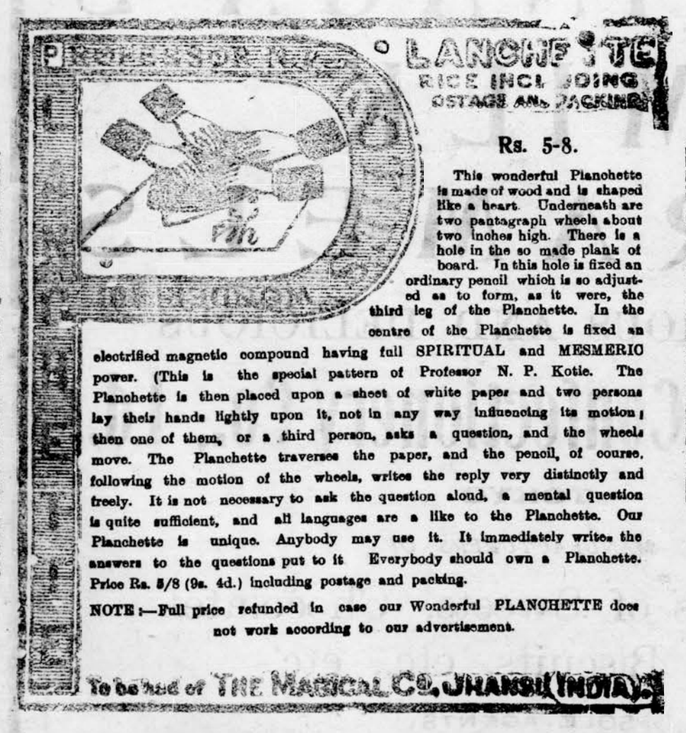
MIRACLE OF SPIRITUALISM



This wonderful Planchette is made of wood and is shaped like a heart. Underneath are two pantagraph wheels about two inches high. There is a hole in the so made plank of board. In this hole is fixed an ordinary pencil which is so adjusted as to form, as it were, the third leg of the Planchette. In the centre of the Planchette is fixed an electrified magnetic compound having full SPIRITUAL and MESMERIC power. (This is the special pattern of Professor N. P. Kotie. The Planchette is then placed upon a sheet of white paper and two persons lay their hands lightly upon it, not in any way influencing its motion; then one of them, or a third person, asks a question, and the wheels move. The Planchette traverses the paper, and the pencil, of course, following the motion of the wheels, writes the reply very distinctly and freely. It is not necessary to ask the question aloud, a mental question is quite sufficient, and all languages are a like to the Planchette. Our Planchette is unique. Anybody may use it. It immediately writes the answers to the questions put to it Everybody should own a Planchette. Price Rs. 5/8 (9s. 4d.) including postage and packing.

NOTE:—Full price refunded in case our Wonderful PLANCHETTE does not work according to our advertisement.

We are very much pleased to see its wonders. A person puts a question mentally or verbally and the Planchette moves on the paper and writes the answer neatly. Questions regarding the Past, the Present and the Future may be put and answers obtained in any language. Anybody may send for this planchette from the Magical Co., Jhansi, and see the wonders."

A FEW TESTIMONIALS MORE.

M. Simon, Esq., of Messrs. Brown and Co. Ltd., writes from Hatton (Ceylon) on the 18th Sept. 1921:—"I got one of your Planchettes from a friend of mine who came here from India, I can say that it is a very wonderful thing. During my entertainments I am in success every time with your Planchette."

I. B Hennavarkar, Esq., of the Eastern Bank, Ltd., writes from Bombay on the 23rd September 1921:—"I am glad to infrom you that I am successful in getting answer from the Planchette that I bought from you recently."

MOTORISTS! READ THIS ANNOUNCEMENT!

We are determined to revive the Public interest in MOTOR VEHICLES of every description which has been stifled by present-day conditions.

Now, more than ever, the Motor Car, the Motor Cycle and the Motor Lorry are essentially articles of every-day necessity and it is a well-known fact that, outside the Budget, nobody ever thinks of them as Luxuries.

Adverse Exchange, Enhanced Duty, Increased Importation charges, all have continued to place high class Motor Vehicles to-day beyond the reach of the great majority.

For this chief consideration, and to make room for large consignments shortly expected of 1923 Models of the various Makes we represent, we have decided to take the lead in making and announcing

SWEEPING REDUCTIONS

all round in the prices of the WHOLE OF OUR STOCK during the period from

11th December 1922 to 31st January 1923.

The Reductions wil vary from 10 to 25 per cent.

Do not miss this opportunity but accept our cordial invitation to visit our Show-Rooms and select your Car, Cycle or Lorry and we shall knock off the last dispensable Rupee from its price to enable you to pucrhase it as favourable as possible.
